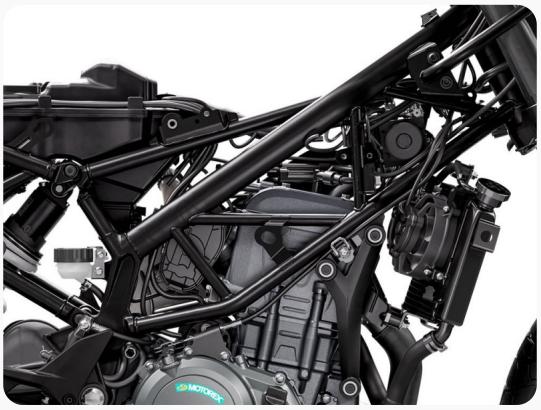
390 ADVENTURE PRE REG FEATURES

KTM 390 power

A state-of-the-art, liquid cooled, single-cylinder, four-stroke 373 cc engine powers this agile machine perfectly into KTM's world of ADVENTURE. The engine is equipped with an electric starter and achieves a peak power of 32 kW (43 hp) with an incredibly punchy 37 Nm of torque. Twin overhead camshafts, four valves and electronic fuel injection are integral to the KTM 390 ADVENTURE's outstanding power and together with a balancer shaft, deliver the highest levels of smoothness. Its lightweight an



FRAME

KTM 390 ADVENTURE features an ultra-lightweight, yet extremely stable trellis frame - just like the multi-championship winning KTM 450 RALLY. It provides the backbone to the KTM 390 ADVENTURE and is a major element that accounts for its nimble handling, and forgiving the balance of flex and stiffness. This, combined with a wheelbase of 1430 mm and a 63.5-degree steering head angle, means it was built to tackle the dirtiest of trails in the great outdoors.

REWORKED SUSPENSION

With many years of development in the toughest terrain, the KTM 390 ADVENTURE boasts WP APEX suspension at each wheel. This results in a best-in-class handling package that is ready to tackle any adventure. Not only that, but the cutting-edge WP APEX shock absorber provides tailored performance ideal for traveling long distances in tough conditions. Thanks to an adjustable spring preload and rebound damping, it can also be fine-tuned to suit the rider, conditions, and nature of adventure.

WHEELS

The KTM 390 ADVENTURE boasts heavy-duty tubeless spoked wheels at each end, making it extremely ready to tackle the toughest of dirt trails. No more worries about cracked or chipped rims, these spoked setups perfectly compliment the offroad-orientated tires to provide unmatched confidence when charging off into the wilderness.

FUEL TANK

What's an adventure without fuel range? The KTM 390 ADVENTURE boasts a 14.5-liter fuel capacity and exceptional fuel economy. This means 400 km jaunts into the faraway outdoors are easily achievable. What's more, the fuel tank represents a central element of the design and engineering, offering excellent ergonomics for riders of all sizes without sacrificing offroad handling.

TFT DISPLAY

A state-of-the-art, full-color TFT display adorns the cockpit of the KTM 390 ADVENTURE. This best-in-class display interface automatically adapts to variations in ambient light. For the best use of power, the rev counter blinks when it's time to shift. The 5" display is easy to read and the main information is arranged in such a way that you can immediately see it. The rider can also easily select which information they would like on the screen via the multi-functional menu switch on the handle
