V100 MANDELLO WIND TUNNEL FEATURES

Electronic Systems

Ride by Wire electronic throttle with 4 Riding Modes, 6-axis IMU, cruise control and a 5" TFT colour display combine to offer an experience that takes riding pleasure and safety to the next level, interpreting the rider's needs according to the riding mode selected. Other comfort-related features include the adjustable windshield which can be activated by buttons on the handlebar, reducing air pressure on the rider by up to 22%.

Full LED lights

Among the many elements that come as standard, the full-LED lighting unit with cornering lights for greater safety and road visibility merit a mention. The LED illumination includes indicators, the taillight and a final touch in the form of Eagle DRLs, that gives an unmistakable Moto Guzzi flourish.

Semi-active suspension

V100 Mandello Wind Tunnel's Öhlins Smart EC 2.0 semi-active suspension adapts readily to road conditions, ensuring superior riding comfort and outstanding stability, whatever the situation.

Engine

V100 Mandello Wind Tunnel is powered by the Compact Block engine: a 90° transverse V-twin with a final shaft drive, wet sump lubrication and an oil-bath clutch with hydraulic actuation. The 1042-cc liquid-cooled engine is compact and lightweight, blending Moto Guzzi's heritage with high performance and refined technical solutions. Compliant with Euro 5+ standards, it benefits from transmission improvements that make gear changes smoother and softer.

Exclusive and evocative

Every Moto Guzzi V100 Mandello Wind Tunnel is embellished with an exclusive symbol on the winglets in homage to the 70th anniversary of the Wind Tunnel. This emblem, which represents Moto Guzzi's aerodynamic innovation, passion and history, ensures every unit is unique item with great collectible potential
