KATANA FEATURES

Feature 1

A long-stroke design with a 73.4mm bore and a 59.0mm stroke allows the combustion chambers to be compact. It therefore allows a combination of an optimal compression ratio, a flat-top piston shape, and a broad spread of power throughout the rev range

Feature 2

The exhaust system has a 4-2-1 design with equaliser pipes between the 1 and 4 and 2 and 3 header pipes. The system fine-tunes the exhaust pulses for strong low-to-mid-range output. The exhaust chamber after the joint section fits under the engine, so the

Feature 3

Equipped with the Suzuki Clutch Assist System (SCAS), the clutch acts as a slipper clutch system when changing down rapidly. SCAS is an advanced clutch system supporting both sporty riding and less fatigue on long rides.

Feature 4

Brembo radial mount monobloc front brake calipers are mated with Ø310mm floating-mount dual discs to provide powerful braking performance. Each caliper has four opposing Ø32mm pistons. The front brake calipers are same type used on the current GSX-R1000.
