VULCAN S FEATURES

Comfortable Seat

Sculpted seat design with thick padding offers excellent comfort and good hip support.

Large Disc Brakes

Large-diameter disc brakes balance ample stopping power with easy control for beginning riders.

Clocks

Clean precise digital info with gear indicator

Adjustable Footpegs

3-position footpegs allow riders to adjust foot position to suit size and preference. Three positions available: STD, 25 mm forward, 25 mm back.

Long range

With its 14 litre fuel tank capacity and the Parallel Twin engine's good fuel economy, the long range offered by the Vulcan S means riders can go longer between fill-ups—convenient in town, and reassuring when out on a daytrip.

Modern, urban styling

Flowing style with long-and-low stance and modern elements like the original headlamp and cast wheels with five spoke pair design give the Vulcan S very non traditional cruiser looks.

Relaxed, foot-forward riding position

The compact engine and slim frame result in a design that is narrow at the knees and feet. Forward positioned footpegs are ideal for relaxed, cruiser style riding.

Low seat height

Being able to easily put your feet on the ground when stopped is one of the most important factors in feeling comfortable on a motorcycle. At 705 mm, the Vulcan S's low seat is very accommodating.
