KATANA FEATURES

Feature 1

A long?stroke design with a 73.4mm bore and a 59.0mm stroke allows the combustion chambers to be compact. It therefore allows a combination of an optimal compression ratio, a flat?top piston shape, and a broad spread of power throughout the rev range

Feature 2

The exhaust system has a 4?2?1 design with equaliser pipes between the 1?and?4 and 2?and ?3 header pipes. The system fine?tunes the exhaust pulses for strong low?to?mid?range output. The exhaust chamber after the joint section fits under the engine, so the

Feature 3

Equipped with the Suzuki Clutch Assist System (SCAS), the clutch acts as a slipper clutch system when changing down rapidly. SCAS is an advanced clutch system supporting both sporty riding and less fatigue on long rides.

Feature 4

Brembo radial mount monobloc front brake calipers are mated with Ø310mm floating-mount dual discs to provide powerful braking performance. Each caliper has four opposing Ø32mm pistons. The front brake calipers are same type used on the current GSX-R1000.
