SFA 400 AG EPS FEATURES

ENGINE

The brand new QJMOTOR SFA 400 is powered by a single-cylinder, liquid-cooled engine that produces 33.5 horsepower. This allows it to operate efficiently on both paved and unpaved roads.

TFT DISPLAY

This brand new QJMOTOR SFA 400 has an aesthetic TFT display on which you can read the speed, engine speed, fuel level, engine temperature, current gear engaged and the number distance travelled. The driver also has two USB charging sockets at they're disposal.

BUMPERS & LIGHTING

The QJMOTOR SFA 400 has full LED lighting with front and rear bumpers as standard.

EPS

Electonic Power Steering as standard gives a lighter feel when you need it with the added benefit of taking away the shocks when on harsh terrain.

IRS Suspension

The new QJMOTOR SFA400 features independent double wishbone suspension at the front and rear. Integrated with the drive shaft and differential. The suspension on this ATV is based on four oil-damped shock absorbers at the front and rear giving fully Independant suspesion.
